Self-evaluation

I'm extremely flexible and passionate about learning that I believe I can be fitted anywhere.

My studies have provided me with broad proficiency in the use of Computer Science & Engineering methods, tools, software packages and techniques. Alongside this, I have developed sound communication skills while delivering presentations to large audiences at university. As such, I am confident that I can make an instant impact in engineering roles.

My key skills include: Python Programming Languages, Data Science, Machine Learning, Cisco Networking, Full-Stack Web Development (Html5, Css3, Bootstrap, Javascript, JQuery, Wordpress, Wix, Php & Mysql, Laravel).
